DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of group II in the reply filed on 4/7/05 is acknowledged.

This application contains claims directed to the following patentably distinct species of the claimed invention: a first embodiment of the invention (see figs. 1A-1H), a second embodiment of the invention (see figs. 2A-2H), a third embodiment of the invention (see figs. 3A-4E), a fourth embodiment of the invention (see figs. 5A-6E), a fifth embodiment of the invention (see figs. 7A-8E), a sixth embodiment of the invention (see figs. 9A-10E), a seventh embodiment of the invention (see figs. 11A-12E), an eighth embodiment of the invention (see figs. 13A-14E), and a ninth embodiment of the invention (see figs. 15A-15E).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard A. Booth whose telephone number is (571) 272-1668. The examiner can normally be reached on Monday-Thursday from 7:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Lebentritt can be reached on (571) 272-1873. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
